

It's time for CSEA members to take our fight directly to the Capitol. We're headed to Albany to tell state legislators: we won't stand by and let corporations enjoy tax breaks while the middle class gets *fewer* services and *fewer* jobs.

It's time to fight back for the middle class. For the services we provide. For the patients, students, and communities we serve. Each and every day, we're on the line for them. Albany needs to know that these services matter. We need *your* voice to be heard.

Will you join us?
